

Call for Abstracts: 18th International Symposium on Long Range Sound Propagation

University of the District of Columbia
4200 Connecticut Ave. NW
Washington, DC 20008
22-23 June 2020
Deadline for receipt of abstracts: 16 March 2020

* Required

About

The symposium on Long Range Sound Propagation (LRSP) focuses on all aspects of long range sound propagation including wave propagation, source modeling, signal detection and analysis, uncertainty quantification, ground and meteorological effects on signal propagation, acoustics for atmospheric sounding, wind noise, infrasound, sonic boom, acoustics in urban environment and acoustic monitoring of man-made and natural hazards. The symposium is held every two or three years between US and Europe. This Spring 2020 the symposium will be held on June 22-23 at the University of the District of Columbia (Van Ness campus), Washington, DC.
