

Announcing the 14th annual Henry E. Bass Basic Acoustics Summer School (BASS) Program at Ole Miss 2023

The BASS Program was designed is to bring undergraduate students, distinguished research scientists of the National Center for Physical Acoustics (NCPA), and discussion leaders together to explore a wide variety of topics in physical acoustics and engineering. This unique program gives students opportunities to do research directed by experts, exploring topics that are not ordinarily encountered in the undergraduate experience.

The focus of BASS is on intermediate and advanced undergraduate students. A limited number of undergraduate students will be selected. Student participants will be assigned to a professional research team to conduct a project in the NCPA labs, while attending workshops and seminars, engaging in discussion groups, and preparing a final presentation.

Participants will receive a **\$3,500 base stipend + \$1450 housing stipend applicable for on-campus or off-campus.**

PROGRAM DATES: May 21 to July 21, 2023
